

## WE'RE LOOKING FOR A QA TESTER

### **JOB DESCRIPTION:**

We are creating a new innovation team which will work on Augmented Reality (AR) and Artificial Intelligence (AI) projects to create the future of retail. Our company is going through an expansion phase and we are looking for people who are passionate about coding, detail oriented, and willing to work with an amazing group of professionals on top-notch companies from US.

### **WHAT YOU WILL DO:**

You will be involved in the process of testing mobile and web applications. You will work closely with developers and management members to test and deliver high quality products.

### **THE IDEAL PERSON:**

- Has 2 years of full time experience in testing
- Has experience in BB and WB testing
- Has knowledge on testing tools
- Has good English communication skills
- Is detailed oriented, hard-working, proactive, organized and a team player

### **BONUS POINTS:**

- Knowledge of software testing strategies and methodologies.
- Experience in agile development environments (i.e. scrum) using Jira.
- Experience in iOS and Android testing

### **RESPONSIBILITIES:**

- Requirements analysis.
- Design, write, maintain, and execute test plans.
- Report bugs, and verify fixes.
- Contribute to define and maintain quality assurance processes and procedures.
- Provide continuous feedback.

### **WHAT WE OFFER:**

- A result oriented challenging environment
- Eventual work from home/remote work
- Excellent working environment

This is a **Full-time** permanent position.

Location: **Montevideo, Uruguay**
